Warrant for Town Meeting

COMMONWEALTH OF MASSACHUSETTS

FRANKLIN, SS:

To either of the Constables of the Town of Whately in the County of Franklin:

GREETING:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the inhabitants of said Town, qualified to vote in elections and in Town affairs, to meet in the Town Hall in said Whately, on Monday, the twentieth day of February next, at 11.30 o'clock in the forenoon, then and there to act on the following articles:

Article I. To choose by ballot all necessary Town Officers for the ensuing year: Moderator, Treasurer, Town Clerk, one Selectman for three years, one Assessor for three years, one School Committee for three years, two Library Trustees for three years, one Cemetery Commissioner for three years, Auditor, Tree Warden, Elector under the Will of Oliver Smith, and Constables. ✓

Article II. To receive the reports of the various Town Officers and Committees, and act thereon. *filed*

Article III. To raise such sums of money as may be deemed necessary to defray the expenses of the town for the ensuing year. ✓

ted
Article IV. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1950, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Chapter 44, section 17, General Laws.

sted
Article V. To see if the Town will vote that the Selectmen be authorized to prosecute and defend all suits that may be brought in behalf of, or against, the Town, and employ counsel for same.

sted
Article VI. To see if the Town will vote to accept any Trust Funds that may have been given to the Town since January 1, 1949.

mary
Article VII. To see what the Town will do with the money received from the County, called the Dog Fund. *241.58*

*ed

Article X. To see if the Town will vote to fix the salaries and compensation of all elective officers of the Town as provided by Chapter 41, section 108, General Laws: Selectmen, Assessors, Moderator, Town Clerk, Treasurer, Auditor, Collector of Taxes, Elector under the Will of Oliver Smith, Tree Warden, Constables and School Committee.

Voted
Article XI. To see if the Town will raise and appropriate the sum of \$3000 for the maintenance of highways under the pro-

visions of sections 26-29 of Chapter 81, General Laws and amendments thereto.

oted
Article XII. To see if the Town will raise and appropriate the sum of \$500 for the maintenance of highways under Chapter 90, General Laws, said money to be used in conjunction with State or County funds, or both.

oted
Article XIII. To see if the Town will raise and appropriate the sum of \$2000 for improvements on Haydenville Road under the provisions of Chapter 90, General Laws, said money to be used in conjunction with State or County funds, or both.

oted
Article XIV. To see if the Town will vote to appropriate from Surplus Revenue the sum of \$10,000 for the financing of State and County grants for highway work, reimbursements when received to be returned to Surplus Revenue account.

oted
Article XV. To see if the Town will vote to appropriate the sum of \$6250 from Post-War Rehabilitation Fund, or other available funds, for the town's share of the cost of replacing Lane Bridge, so-called, on Depot Road, in accordance with plans and specifications of the Department of Public Works.

oted
Article XVI. To see if the Town will raise and appropriate, or transfer from available funds, the sum of \$5225 for sanitary and other improvements in school buildings, said money to be used with funds voted for similar purposes in 1949.

Article XVII. To see if the Town will raise and appropriate the sum of \$2432 for salaries of two cooks in the school cafeteria, at the rate of \$35.00 per week for the first cook and \$29.00 per week for the assistant cook, retroactive to January 1, 1950.
252- same as 1949

oted
Article XVIII. To see if the Town will vote to transfer from Surplus Revenue the sum of \$11.65 to Fire Department Reserve, this being the unexpended balance of 1949 appropriation.

Article XIX. To see if the Town will raise and appropriate the sum of \$200 for Memorial Day observance under the auspices of the American Legion Post of Whately.

Article XX. To see if the Town will appropriate from S. White Dickinson Library Fund income, the sum of \$5000 for equipment, operation and maintenance of the S. White Dickinson Memorial Library.

Article XXI. To see if the Town will raise and appropriate the sum of \$1200 for tree work and spraying, under the direction of the Tree Warden.

Article XXII. To see if the Town will raise and appropriate the sum of \$400 for Gypsy Moth work, under the Moth Superintendent. *Finance Board*

Article XXIII. To see if the Town will raise and appropriate the sum of \$150 for removal of diseased town elms, under the direction of the Moth Superintendent.

Article XXIV. To see if the Town will appropriate from Surplus Revenue, the sum of \$1885 to meet its share of the administration expenses of the Public Welfare District of Conway, Deerfield, Sunderland and Whately, Federal grants and State reimbursements, when received, to be returned to the Surplus Revenue account.

Article XXV. To see if the funds received from the State as Federal grants and/or State reimbursements for Public Welfare Administration, shall be used as a revolving fund in the Public Welfare District treasury, if the legislature so votes.

Article XXVI. To see if the Town will raise and appropriate, or transfer from available funds, the sum of \$2000 to purchase a new highway truck, and authorize the trading-in of the 1946 Ford truck against the purchase. *of a Ford.*

app. Road Mach. Fund - 8

Article XXVII. To hear the report of the Water Supply Committee and act thereon. *Indefinitely postponed*

Article XXVIII. To see if the Town will vote to sell at private sale, or otherwise, the fountain in the Center Cemetery. *Indefinitely postponed*

Article XXIX. To see if the Town will vote to discontinue the section of highway known as Mill Hill Road, from the junction of Chestnut Plain Road near Homer Briggs' residence to the junction of North Hatfield Road at property of Albert B. Zaskey (known as the Wilder place). *Indefinitely postponed*

Article XXX. To see if the Town will vote to authorize the Selectmen to appoint an Inspector of Wires, in accordance with the provisions of Chapter 529, Acts of 1949. *Last voted*

The Polls will be open for voting from
11.30 A. M. to 6.00 P. M.

Business meeting will be called to order at 1.30 P. M.

And you are directed to serve this Warrant, by posting up attested copies thereof at two public places in said town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk, at the time and place of meeting aforesaid.

Given under our hands this sixth day of February, in the year of our Lord one thousand nine hundred and fifty.

Respectfully submitted,

ARLENE ROOTE WAITE,

Town Clerk

Report of the Board of Selectmen

To the Citizens of Whately:

In accordance with the requirements of the General Laws of the Commonwealth of Massachusetts, we herewith submit our report for the year ended December 31, 1949.

The Selectmen's activities during 1949 have been confined mostly to routine matters, although a few items merit some discussion.

Highway work under Chapter 81 has been carried out under the direction of the State Department of Public Works engineers, and we feel that a good job has been done. Graveling of Long Plain Road northerly has continued and some black-top surfacing done on the section previously graded. In view of the prospective closing of Bryant's Crossing on the present Routes 5-10, continuation of this improvement of Long Plain Road seems more important than ever and we will use every effort to push this work in 1950.

Haydenville Road was fully graded to the Williamsburg line during the fall, but due to the heavy fill ordered by the State, it was not considered advisable to surface this section until 1950. A substantial balance of 1949 funds for this project has been carried over and will be sufficient to complete the job early in the spring. A contemplated fencing job northeast from Symanski's corner on Haydenville Road was omitted and the appropriated funds turned back, since the State and County have agreed to help us on this work with a widening and straightening job at the location during 1950, under Chapter 90.

An important step has been taken during the year towards replacing Lane Bridge, so-called, and we have a tentative allotment of State and County funds covering the work in 1950. At the time of writing this report, absolute promise is lacking, but

we feel quite confident that it will go through and we are asking for an appropriation in our budget. This should be taken from our Post-War Rehabilitation Fund, with no effect on the tax rate.

There will be available in our 1950 Chapter 81 State grant, up to \$3000 for snow removal. Since this covers plowing only, it will continue to be necessary to appropriate a substantial sum to cover sanding, drainage and normal and emergency winter road work, as usual.

We feel that it would be good business to trade in the 1946 Ford truck at this time, as it has had hard usage and is in need of heavy repairs. The Marmon-Herrington 4-wheeler is in good shape, as it has been reserved for snow plowing chiefly, and we believe it should be continued in that capacity in the future.

Our Public Welfare District appears to be working out very satisfactorily. Some few "bugs" have developed, particularly in the matter of legal use by the District of State and Federal grants for administrative purposes, but a bill is now before the legislature which should clear up any questions in that regard. While the sum requested for Public Welfare Administration may seem large in comparison to the former costs of this work, it must be realized that the State and Federal supervision requirements have added much detail to the work, and a local administrator would have to spend much more time than formerly on the work. State grants, which are not available under individual operation, and Federal grants, will bring the net cost down near the probable net for local administration. It should be understood that these grants, under the laws as they stand today, are required to be returned to general funds, and cannot be used to reduce the town's share of District administration. When the corrective legislation goes into effect, we expect the grants can be used by the District, cutting the use of the town appropriation by about 75%.

A substantial increase in our case load for Public Welfare took place late in 1949, mostly in medical and hospital cases, and it was necessary to transfer funds to cover our costs. Our request for 1950 reflects the current load, plus a possible increase during the year. O. A. A. and A. D. C. requests are also mater-

ially increased, about \$1500 of the O. A. A. increase being due to the so-called "leisure-time" grant given to all O. A. A. cases by the 1949 legislature. This is expected to be entirely reimbursed by the State.

We planned to paint our town hall in 1949, but found upon checking the cause of some rotted clapboards that some of the sills were in bad condition. It was not possible to determine the extent of the damage until considerable tearing-out was done, so to be on the safe side a special town meeting was called to appropriate additional funds for the work. It developed that complete re-silling of the north and west sides of the building was necessary and raising and leveling of the entire building required the installation of new concrete piers under the floors to replace dry-laid piers which had been there since the building was erected (about 1835). New concrete footing was placed below frostline on north, west and south sides and cinder block foundations with ventilating windows completed the work. The expense of this, while substantial, was well within the funds set up, and we were able to redecorate the town office, with new ceiling and asphalt tile flooring, and still turn back about \$170 unexpended. We are asking for \$600 to paint the exterior in 1950. The use to be made of the space which will be vacated by the library during the year, is a matter for discussion and decision by the town at a future time.

Attention is called to several departmental reports which appear for the first time, namely Cemeteries, Public Health Nursing and Welfare District. We hope they will receive special consideration.

Respectfully submitted,

FRANK L. FARRICK
JOHN P. DUDA
PATRICK L. BRENNAN

Reserve Fund <i>realy 300 -</i>	1500 00	
	<hr/>	
	\$89276 20	

In addition to the above, we also recommend that \$6250 be appropriated from our Post-War Rehabilitation Fund to cover the town's share of the cost of replacing Lane Bridge, which it is expected will be done this year at an estimated cost of \$25,000, shared by the State and County.

While it will be noted that the total of these recommendations is about \$10,000.00 more than was recommended for 1949, all of the requests appear reasonable, although several have been cut from the amounts asked, and may appear in special articles with larger sums attached.

No recommendation has been made for the proposed replacement of the Highway Department truck, since no accurate figures were available at our meeting, and we believe that the Road Machinery earnings account is large enough to cover the cost of the exchange, thus not affecting the tax rate.

The following recommended schedule for town officers' salaries involves the usual increases for registrars and election officers, due to this being a State election year:

Moderator	\$ 25 00
Selectmen, Chairman	300 00
2 members at \$150	300 00
Auditor	100 00
Treasurer	400 00
Collector at 1 3/4%	900 00 (estimate)
Assessors, Chairman	250 00
2 members at \$200	400 00
Town Clerk	100 00 (plus fees)
Registrars, 3 at \$40.00	120 00
Clerk at \$65	65 00

Constables and Police	75 00 (estimate)
Elector under Oliver Smith Will	10 00

Appointive:

Bookkeeper and Clerk to Selectmen	600 00
Town Counsel	150 00 (estimate)
Assistant Registrars	70 00 (estimate)
Election Officers	115 00 (estimate)
Sealer of Weights and Measures	100 00
plus fees	50 00 (estimate)
Dog Officer	35 00
Fire Chief	100 00

\$4265 00

The salary recommended for Fire Chief is a new item, which seems advisable since he is required to make a great many inspections for issuance of permits, and licenses, as well as follow-ups on fires and reports thereon. Fees received far from compensate him for the time and mileage involved, and we recommend this salary in lieu of the fees which will now be turned in to the town. His time on fire-fighting will continue to be paid under the Fire Department appropriation, in addition to the salary.

The following salaries for School Committee members are recommended, and the corresponding total appears in the School Department budget:

Chairman	\$125 00
Secretary	150 00
3rd Member	100 00
	<hr/>
	\$375 00

Respectfully submitted,

HOWARD R. WAITE, Chairman
PAUL F. FIELD, Clerk

EDWARD D. SMIAROWSKI, Collector

Auditor's Report

To the Citizens of Whately:

I present my 17th Annual Report on the books and records of the various Town Officers:

The Treasurer has paid orders as follows:

Selectmen's Orders	\$115206 64
School Committee's Orders	33637 61

Total Payments	\$148844 25
----------------	-------------

Details of expenditures appear elsewhere in this report.

The Treasurer has in his possession and due the Town of Whately, on December 31, 1949, the sum of \$72,152.21, of which \$12,135.55 belongs to the S. White Dickinson Library Building account, representing an excess of funds liquidated but not yet used. The cash on hand has been verified by an actual count of money in the Treasurer's possession and an examination of the depository bank's statement.

The securities and bank books forming the investments of the various trust and investment funds, totaling \$169,744.26, have been carefully checked and found to be in order. Details of these investments appear elsewhere in this report.

To provide funds for the erection of the S. White Dickinson Memorial Library, several savings bank accounts and a number of U. S. Treasury bonds have been sold, the latter at a substantial premium.

The Tax Collector's records have been closely examined and found to be in excellent shape. All taxes of years prior to 1949 have been collected in full, and less than 12½% of the 1949

property levy was outstanding on December 31, 1949. All 1949 Poll and Excise taxes were collected in full.

We still hold the small tax title as it has not been possible to complete the details involved in clearing this from the books, but we expect this to be done shortly.

No borrowing has been necessary during the year, due to the continued substantial cash balance on hand, and no loans are outstanding.

The balance sheet herewith shows that the Town is in a very strong financial position, and a "free cash" balance of about \$44,000, up to 50% of which may be used to offset current appropriations and finance State grants for highways and other purposes.

A report of the audit by the Department of Accounts in September, 1949 is included in this report. We feel that the absence of any criticisms of any sort in the audit should be considered as a compliment to all the Town's officers and departments.

Respectfully submitted,

PAUL F. FIELD,

Town Auditor

Report of Library Building Committee

To the Citizens of Whately:

Our last annual report included pictures and floor plans of a proposed S. White Dickinson Memorial Library, prepared by Mr. Walter P. Crabtree, Sr., which we believed, as did the architect, could be built for a sum of money that would allow the retention of sufficient funds from the gift to provide operating and maintenance income.

However, upon receipt of bids on February 10, 1949, it was found that the lowest bid was for \$126,704, which was much higher than we felt advisable to expend for the building, and, as was reported at the annual meeting, the bids were rejected and the architect instructed to revise his plans and attempt to give us a building that would come within our maximum cost figures.

Several meetings were held with Mr. Crabtree, and new plans and specifications were sent out to contractors in July. When bids were opened on August 5th, Daniel O'Connell's Sons, Inc., of Holyoke proved to be the low bidders with an offer of \$76,357. Following a special town meeting which transferred \$90,000 from the S. White Dickinson Library Fund, a contract was let to the O'Connell concern, and work was started immediately. The contract does not include the cost of separate water supply, sewage disposal, finish grading, or furniture and equipment, all of which we hope to provide out of the \$90,000 funds.

The building, naturally, cannot include some of the features that appeared in the first plans, but we believe that adequate provision for book storage and distribution, reading rooms and meeting rooms, has been made. Construction has progressed well, although the contractors' expected completion date of February 1, 1950 has necessarily been extended, due to delays

in receiving some materials. However, we expect the building will be finished by early spring, and that painting, finish grading and landscaping can be done soon after, so that any dedication ceremonies can be held in warm weather.

We believe this structure is going to be a credit to the town, and that it can be operated on an economical basis within the ability of the funds to support, with a town appropriation of about the same amount that has previously been made available for library use.

Respectfully submitted,

DOROTHY P. MacKAY, Chairman
PAUL F. FIELD, Secretary
FREDERICK A. ADAMS
GORDON E. AINSWORTH
CHARLES A. PIELOCK
EMERY L. SANDERSON

S. White Dickinson Library Building Committee

Water Supply Committee

Some comments have been circulated that indicate that some residents feel that the town officials have been negligent in failing to take steps to provide Whately with an adequate water supply, so we feel that a summary of the action that has been taken should be presented at this time.

It is a fact that, many years ago, when South Deerfield received from the legislature the right to take water from Whately Glen, no provision was made to preserve Whately's right to tap this source; but it is also true that, at that time, there was no indication of any desire of the inhabitants to have a public water supply or fire protection, since the two private systems cared very nicely for the more closely-populated portion of the town. Perhaps officials of that time lacked fore-sightedness, but certainly they were not intentionally negligent.

However, by the year 1933, it became apparent that more water service was essential, and steps were started by the town officials to try to provide both household water and fire protection, and an appropriation of \$2000 was made for investigation expenses. Of this sum, about \$1600 was expended for surveys, maps and legal fees, which included the cost of obtaining special legislation creating the Whately Fire and Water District. Sources of supply in West Whately were investigated, but the cost of bringing the water over the intervening hilly and rocky terrain was much too high. Public sentiment became lukewarm and the project was finally abandoned.

The legal entity of the District was kept alive, however, and it was always in the minds of the officers of the town and District that eventually use could be made of the rights provided, but it was not until 1945, when the shortage of water in the Center again became serious, that further action was started. In that year, \$500 was appropriated by a special town meeting, and a

committee appointed, which was able to obtain exceptionally competent engineering advice at a low cost; and the entire central and eastern sections of the town were carefully surveyed, possible consumption and prospective income calculated, and a detailed check of possible sources of supply with costs of reservoirs and distribution systems fully detailed.

It was determined that a complete storage and distribution system, covering the entire area embraced by the District (and this does not include the western part of the town) would cost at least \$250,000. Since the District, under the Act creating it, is authorized to borrow only \$100,000, a smaller and less extensive distribution system was worked out, with an estimated cost of \$175,000. The legislature was then petitioned for authority to increase the borrowing capacity of the District, but that petition was "referred to the next session", which effectively killed the whole proposition, at least for the time being.

The committee, which is also the Board of Water Commissioners of the District, has held frequent meetings, and examined and discussed numerous possibilities, without arriving at any logical solution to the problems. Although there has been some discussion very recently with the South Deerfield Water Commissioners, where very cordial consideration was given to our needs, they are unable to make any promises as to what the District might vote to do towards providing Whately with a water supply.

Checks with competent well-drillers and also with a well-known geologist from Amherst, who knows the rock and soil structure of the region very well, have not served to encourage us to feel that a source of supply within the town is economically available, unless a substantial amount of money should be spent in making deep-well borings with the ever-present risk of failure. The watershed on Esther Brook, where there seemed to be an adequate supply of water for several years from 1945 on, showed a drop in flow to almost zero during the recent drouth, while the watershed of the Northampton Water Department in West Whately has not proved adequate for that city's needs, and Northampton is now searching for additional sources of supply.

The Whately Glen supply has, up to now, proved to be ad-

equate for South Deerfield, but it is true that during the 1949 period of water deficiency, there were many days when no water was going over the dam.

But, even though an adequate supply of water should be located, either within or without the town boundaries, the matter of distribution over a large territory, much of it sparsely populated, is the most serious obstacle, and the cost of distribution, even if water were furnished us without cost at the town boundary or anywhere within the District, appears to be beyond the means of the town to assume.

Hope has not been abandoned, however, and the town and District officials are still searching for the solution, for it is realized that further growth of the town is seriously slowed unless a suitable supply of water can be furnished. We are willing to entertain any constructive suggestions that anyone has to offer.

Respectfully submitted,

LAWRENCE E. ROBINSON
GORDON E. AINSWORTH
FREDERICK A. ADAMS
MORRIS R. DWIGHT
SABIN P. FILIPKOWSKI

Water Supply Committee

Town History Committee

In 1942, a committee was appointed for the purpose of revising and bringing up to date the Crafts' History of Whately.

The Chairman and Secretary, with several members of the committee, numbering twelve, spent considerable time gathering vital statistics and various records, and setting them up in a card system that could be readily corrected and added to by personal visits to homes and families.

Unfortunately, due to war conditions, the committee, which was augmented by several volunteers, became inactive, and has been depleted by deaths, removals from town and lack of interest, so that there has been very little real progress made. It is a long tedious process to bring the genealogical data up-to-date over a period of 50 years, and it really calls for at least two or three persons to devote practically full time to the job if it is to be done right.

It would please your remaining committee members very much if several volunteers would assume some of the burden of visiting local homes and bringing family records up-to-date. We have a good basis of data to start from, but co-operation is necessary from all our citizens if an accurate and complete genealogical history is to be prepared. While the Chairman and Secretary have not the time for this part of the work, they would be glad to give the necessary supervision and coordinate the results.

We want to thank those who have done some of the work already, for we know from experience that results are often disappointing and a lot of time can be spent in getting a small amount of information, but we would really like to see the work continue.

CAMELLA MAIEWSKI
FRED W. BARDWELL

Town History Committee

Report of Cemetery Commissioners

To the Citizens of Whately:

In accordance with the vote of the annual town meeting of 1949, considerable work has been accomplished in both the Center and West cemeteries in straightening, resetting and repairing gravestones which had been neglected and damaged over the years. It was felt that more satisfactory and permanent results would be accomplished in some instances by having an experienced workman with proper equipment handle the larger stones, and T. L. Dorsey of Amherst was paid \$135.00 for putting in new foundations for 21 stones, and straightening and resetting nine others, as well as repairing joints on several, in the Center.

There are still many stones needing new foundations and straightening, most of which can be done by our own men. At West Cemetery, all of the work has been done by local help and most of the stones are in good condition. There is quite a good deal of this work needed at the East cemetery which it was not possible to accomplish this year, and we are asking for the same appropriation for 1950, hoping that most of the repair work can be finished.

There has been a very small increase in the income from Perpetual Care funds this year, but far from enough to adequately care for the lots for which they are intended. In practically every case \$100 was deposited, and with an income from that of \$1.50 to \$2.00, depending on which bank is holding the deposit, the lot must necessarily be cared for from public funds, if it is to be kept in good appearance. We hope that future gifts for Perpetual Care will be at least \$200, or preferably more, for the average lot.

Some criticism of the care given the cemeteries has been heard, but if the critics will take into consideration the fact that weather conditions cause a wide variance in the growth of the grass and other vegetation in different portions of the area, depending on soil conditions, they may realize the difficulty of keeping each and every lot in perfect shape at all times. Every effort is being made to expend the available funds to get the best results.

Respectfully submitted,

KENNETH A. DANIELS
FRED B. BARDWELL
GEORGE DUFAULT

Cemetery Commissioners

Report of Public Health Nursing

To the Citizens of Whately and Sunderland:

The community nurse committee appointed at the annual town meetings organized in April and adopted the attached set of rules. It was voted at this meeting to secure a nurse and offer a salary of \$2400 plus mileage costs. Subsequently, Miss Margretta McCann of Greenfield, with an outstanding record for public health work and with training in Dublin and London hospitals, was obtained.

Through the courtesy of the town of Sunderland, an office was secured and Miss McCann is on duty from 8.00 A. M. to 12 noon, Monday through Saturday, and from 1.30 P. M. to 4.30 P. M. Monday through Friday.

The arrangement has proved satisfactory and we are indeed fortunate to have a nurse of great efficiency. Separately you will find a report of her activities, also financial reports from the town treasurers.

Visitors are welcome at board meetings, as are also constructive criticisms.

In closing I wish to thank the town officers for their cooperation in establishing this service.

Respectfully submitted,

DOROTHY G. STRIPPE,

Chairman, Public Health Nursing Committee

To the Citizens of Whately and Sunderland:

I herewith submit my report as Community Nurse for the towns of Sunderland and Whately, from September, 1949 through December, 1949.

In September the school children were weighed and measured, and given a general check-up for good appearance and general cleanliness. In October, I assisted the School Physicians with the medical examinations. Follow-up visits are still being made, but the general response has been excellent, and I deeply appreciate the generous cooperation given by the parents.

This year we were able to use the new Maico Audiometer for the hearing testing in the schools, and it is now possible to test the children in the first grade. Approximately 210 children were examined and the failure percentage was very low.

Frequent talks with the teachers keep the nurse aware of the needs of the children, and I thank them for their friendly help.

The general health of the people of Sunderland and Whately appears to be very good. I would like them to feel they can consult the nurse about their health problems at any time. I would be glad to help in any way possible.

The total number of visits was as follows:

School visits	183
Home school visits	100
Non-communicable disease visits	77
Health consultation and miscellaneous visits	40
Post-partum visits	19
Infants under 1 yr. of age	20
Tuberculosis visits	10
Pre-school children	3
Total	452 visits
Fees collected	\$48 00

Respectfully submitted,

MARGRETTA McCANN,

Public Health Nurse

RULES OF THE PUBLIC HEALTH NURSING ADVISORY COMMITTEE OF SUNDERLAND AND WHATELY

Article I—Name

The Public Health Nursing Advisory Committee of Sunderland and Whately.

Article II—Objects

The objects of the committee shall be:

1. To assist in interpreting the public health program to the community in order to have it adequately supported and used.
2. To assist in maintaining high standards of service.
3. To assist in developing a cooperative program with all of the public health agencies in the community.

Article III

The membership of this committee shall be composed of not less than 12 individuals selected because they are thoroughly interested in the development of community health and a representative of various groups, organizations, and areas in the community served.

Section I—Duties

The duties of the committee shall be:

- a. To be familiar with what are the accepted standards in the field of public health.
- b. To have a thorough understanding of the health needs and resources in the community.
- c. To assist in interpreting the program of the organization.
- d. To render or to provide volunteer assistance to the professional personnel in carrying on the health program.

Section II—Election

- a. Members shall be elected at each annual meeting of the committee from a slate presented to them by the nominating committee.

One-third of the committee members shall be elected for a term of three years, one-third for a term of two years, and one third for a term of one year. At each annual meeting thereafter, members to fill the vacancies caused by the expiration of terms shall be elected for a term of three years.

- b. All committee members shall be eligible for two terms.
- c. Vacancies occurring through death, resignation, or otherwise in the committee shall be filled by election by the remaining committee members. The person so elected shall hold office for the unexpired term of the former member. The committee shall have power also to fill temporary vacancies (caused by leave of absence or otherwise).

Section III—Meetings

- *a. Regular meetings of the committee shall be held each month on the first Monday at alternating towns.
- b. Special meetings of the committee may be called at any time by the Chairman.
- c. Notice of meetings—Notices of both regular and special meetings shall be sent by the secretary to each member of the committee at least one week before such meeting.

*Amended to read quarterly instead of monthly.

Section IV—Quorum

A quorum shall consist of five out of twelve members of the committee and a majority vote of those present shall decide all questions.

Article IV—Officers

Section I—Duties

The officers of the committee shall be: Chairman, vice-chairman, secretary, treasurer, whose duties shall be such as are usual-

ly performed by such officers and such other duties as the committee shall prescribe.

Section II—Election

- a. The officers shall be elected by the advisory public health committee from a ticket previously prepared and submitted by the nominating committee.
Candidates for officers are selected from members of the committee who are not members of the professional staff of the organization.
- b. The election of officers shall be voted by ballot at the annual meeting provided that a quorum be present; a majority of the votes cast shall be necessary to elect.

Section III—Term of Office

The term of office shall be two years. All officers shall be eligible for a second term.

Note: It has been found satisfactory to limit the terms of the officers to a definite number, in order to develop administrative ability among more members of the committee.

Article V—Committees

Section I—Appointment

The chairman shall appoint sub-committees whose duties shall be herein prescribed. (The chairman and professional workers shall be ex-officio members of all committees—the chairman with a deciding vote in case of tie, the professional workers without vote).

Sub-committees generally appointed are:

Nominating committee
Education committee
Publicity committee

Duties of sub-committees:

- a. Nominating committee
The function of the nominating committee shall be to

prepare a ticket of the committee members and officers to be elected at the annual meeting. This committee should be elected at the annual meeting. This committee should be constantly on the alert for people who will make good committee members.

b. Education committee

The education committee with the aid and cooperation of the professional staff should be responsible for the education of the new members and for keeping the committee members in touch with community needs and programs, and new trends in the field of public health.

c. Publicity committee

The publicity committee shall assist in keeping the work and needs of the health unit constantly before the public. It shall submit all publicity to the professional staff for approval.

Article VI—Annual Meeting

The annual meeting shall be held each year during the month of March, first Monday. At least seven days' notice in advance of the meeting must be given before said meeting, by mail, to the last known address of each member of the association, also by publication in the newspaper.

Article VII—Amendments

The By-Laws may be adopted, amended, or annulled at any regular meeting by a majority vote, provided notice of the proposed adoption, amendment, or annulment shall have been sent to each member two weeks before such meeting. A majority vote of those present shall be necessary for adoption.

First Annual Report of Public Welfare District of Conway, Deerfield, Sunderland and Whately

District Welfare Office,
128 Main Street,
South Deerfield, Mass.

January 2, 1950

District Welfare Committee
Boards of Public Welfare of Conway, Deerfield,
Sunderland and Whately

Dear Sirs:

An effort has been made in this report to summarize in concise a form as possible the total Aid and Administrative programs of the 1949 and past nine months respectively.

It is difficult to make accurate comparisons in many cases, because Aid is reported on a yearly basis whereas the District Administration has been operating for only nine months.

We wish to point out that both Federal and State Governments pay back to the Towns portions (but not all) of these expenditures for Aid and Administration.

We hope this report will make it possible for the District Welfare Committee, the Boards of Public Welfare of Conway, Deerfield, Sunderland and Whately as well as the townspeople of each community, to better understand their Aid Programs.

Respectfully submitted,

GERTRUDE H. TINKER,

Agent

**ESTIMATED ADMINISTRATIVE EXPENSES
PUBLIC WELFARE DISTRICT
OF
CONWAY, DEERFIELD, SUNDERLAND AND WHATELY**

Salaries:

Welfare Agent	\$2640 00	
Junior Clerk	1664 00	
Social Worker	1820 00	
Treasurer	100 00	
Secretary	200 00	
	<hr/>	\$6424 00

Office Expenses	94 00
Office Equipment	50 00
Auto expense and repairs	340 00
Auto Insurance	100 00
Garage Rent	60 00
Treasurer's Bond	22 50
Office Rent	720 00
Telephone	160 00
Postage	169 00
Miscellaneous Expenses	40 00
Social Service Index	18 63
	<hr/>

\$8198 13

Apportioned as follows:

Conway 20%	\$1640 00
Deerfield 46%	3775 00
Sunderland 11%	900 00
Whately 23%	1885 00
	<hr/>
	\$8200 00

**Estimated Reimbursements to be expected on
above Administration Costs:**

Whately's share	Federal	\$ 583 31
	State	627 22
		<hr/>
		\$1210 53

These amounts will come back to the towns sometime either to the general treasury through the District Welfare Treasurer, or to the District to be used over again. However, there seem to be delays in receiving these payments, and a question as to their proper use, so we have to raise the entire amount to be sure to have the funds as they are needed.

Report of the Fire Chief

To the Board of Selectmen,
Whately, Massachusetts

Gentlemen:

I herewith submit my annual report of the Whately Fire Department for the year 1949.

During the year the department answered twenty-one calls, as follows:

Chimney fires.....	8
Grass fires.....	4
Brush fires.....	2
Dump.....	2
Rubbish.....	1
Building fire.....	1
Flooded oil burner.....	1
Woods.....	1
Tree.....	1

This is a decrease of five calls over 1948. One of these was an assist to South Deerfield with a grass and brush fire near the town line.

The Mutual-Aid System, of which we have been a member, has been revised to include 40 towns from Northampton north to Brattleboro and Keene. The services of these departments participating in the Mutual Aid System is available without cost but any materials furnished will have to be paid for. It provides for assistance of all fire fighting equipment, ambulances and first-aid that come within the jurisdiction of the departments.

Our emergency vehicle has been called upon four times this year, one to transport a person who had a shock, one to transport an elderly person from one nursing home to another, and two calls where the patient had passed on before the arrival of the ambulance. This vehicle is for the use of people at no cost. May I suggest that in case of accident that call be put in to the fire department for it. If it is not needed it will be returned to the station.

I would like to recommend the continuance of the Fire Department Reserve Fund, as in the past.

I would also like to recommend that consideration be given to construction of water holes under the supervision of the department, and also some attention be given to approaches to present water supply.

The expenditures of the department's appropriations will be found elsewhere in this report.

I would like to take this opportunity to thank the men of the department for their able assistance and cooperation in answering alarms and in attending fires, also all others who assisted in any other way.

Respectfully submitted,

EUGENE N. GRAVES,

Chief

Report of Inspector of Animals

Board of Selectmen,
Whately, Mass.

Dear Sirs:

The annual inspection of barns and animals was completed during December, 1949. Ninety farms were found to have stables housing 703 cattle, 79 horses, 83 swine.

During the course of the year it was necessary to quarantine three dogs.

With the exception of one, the condition of stables and animals was satisfactory.

Respectfully submitted,
ROGER D. KENNEDY,
Inspector of Animals

Report of the Sealer of Weights and Measures

Board of Selectmen:

During 1949, I inspected and sealed 39 platform scales, 100-5000 lbs., and 1 platform scale over 5000 lbs; also 6 spring scales and 3 computing scales, under 100 lbs. capacity, 4 gasoline meters and 1 kerosene meter—fees collected and turned over to Town Treasurer, \$25.36.

Respectfully submitted,
ARTHUR R. STRIPPE,
Sealer of Weights and Measures

Veterans' Service Center

Report of the Tree Warden

To the Voters of Whately:

With Dutch Elm disease on the increase in surrounding towns, we were very fortunate in not having a case reported in 1949.

We do have a very serious condition of dead elms on private property which is a present and potential breeding place for the beetles which spread Dutch Elm disease, and this matter has been reported to our Gypsy Moth Superintendent, and it appears that in the future the State may take some action to alleviate this situation.

Spraying cost for Dutch Elm this year was \$519.00.

Considerable pruning and other tree work was accomplished during the year, as I was able to get local help to clean up dead trees and remove them.

We still are not immune to the Dutch Elm disease and I would recommend that our appropriation be large enough for 1950 to continue with the spraying and trimming as is now in progress.

I had a small amount of spraying done to eradicate poison ivy and will closely watch the results. If found profitable will continue to do more of it in 1950.

Respectfully submitted,

EDWIN A. GRAVES,

Tree Warden

Report of the Moth Superintendent

Board of Selectmen,
Whately, Mass.

Gentlemen:

Scouting for gypsy moth was done this year, throughout the town, as usual. Mr. Twiss, State Inspector, found everything satisfactory as far as we have gone. I have been advised by Mr. Twiss that the town should increase the appropriation for this work from \$250 to \$400 for 1950.

It has been also recommended that the town raise funds to cover the cost of cutting and burning diseased elms, which work now comes under the duties of the moth superintendent.

Respectfully submitted,

J. HAROLD FLAVIN,

Moth Superintendent

Report of the State Audit

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

State House, Boston, 33

January 18, 1950

To the Board of Selectmen,
Mr. Frank L. Farrick, Chairman,
Whately, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Whately for the period from June 15, 1947 to September 24, 1949, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

(Signed) FRANCIS X. LANG,

Director of Accounts

Mr. Francis X. Lang,
Director of Accounts,
Department of Corporations and Taxation,
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Whately for the period from June 15, 1947, the date of the previous audit, to September 24, 1949, and submit the following report thereon:

The financial transactions, as entered on the records of the several departments receiving or disbursing town funds or sending out bills for collection, were examined and checked in detail.

The surety bonds of the treasurer, town clerk, and tax collector for the faithful performance of their duties were examined and found to be in proper form.

The books and accounts of the town auditor were examined and checked in detail. The recorded receipts were checked with the treasurer's record of receipts, while the recorded payments were compared with the selectmen's warrants and with the treasurer's books. The appropriations as listed from the town clerk's record of town meetings were checked with the ledger appropriation accounts, and all other ledger accounts were checked with information in the departments in which the transactions originated. The ledgers were analyzed, a trial balance was taken off, and a balance sheet showing the financial condition of the town on September 24, 1949, was prepared and is appended to this report.

The books and accounts of the tax collector were examined and checked in detail. The tax accounts outstanding at the time of the previous examination, and all subsequent commitment lists of poll, personal property and real estate taxes, as well as motor vehicle, and trailer excise, were audited and proved with

the warrants given by the board of assessors. The recorded collections were checked, the cash book additions were proved, the payments to the treasurer were verified, the recorded abatements were compared with the assessors' record of abatements granted, and the accounts transferred to the tax titles account were checked. The outstanding accounts were listed and proved with the auditor's ledger accounts, and the cash balance on September 24, 1949, was verified by actual count of the cash in the office.

The outstanding accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received it appears that the outstanding accounts, as listed, are correct.

The receipts for licenses issued by the board of selectmen were checked with the record of licenses granted. The payments to the treasurer were verified and the cash in hand was proved by actual count.

The books and accounts of the town treasurer were examined and checked in detail. The receipts, as recorded, were compared with the departmental records of payments to the treasurer and with the other sources from which money was paid into the town treasury. The payments were checked with the warrants approved by the selectmen, and the cash balance on September 24, 1949 was proved by reconciliation of the bank balance with a statement furnished by the bank of deposit and by actual count of the cash on hand.

The savings bank books and securities representing the investment of trust and investment funds in custody of the town treasurer were listed and checked. The income was verified and the withdrawals were checked.

The records of payroll deductions on account of federal taxes and the county retirement system were examined and checked. The deductions were compared with the amounts recorded on the

treasurer's books, the payments to the Collector of Internal Revenue, and to the county retirement board were verified, and the balance in the general treasury on September 24, 1949, was proved.

The tax title accounts in custody of the treasurer were checked with the accounts of the tax collector, the auditor, and with the deeds on file.

The appropriations were listed from the town clerk's record of town meetings, and the amounts voted were compared with the aggregate appropriations raised by the assessors in the computation of the tax rates for the period covered by the audit.

The financial transactions of the town clerk were examined and checked. The receipts for dog and sporting licenses were checked with the record of licenses issued and the payments to the Division of Fisheries and Game and to the town treasurer were verified. The receipts for gasoline registrations issued were compared with the town clerk's records, the payments to the treasurer were verified, and the cash balance on September 24, 1949 was proved by actual count.

The records of the sealer of weights and measures were examined and checked. The receipts were checked with the record of work done, the payments to the treasurer were verified, and the cash on hand proved by actual count.

The records of charges of the public welfare department for aid to dependent children and old age assistance were examined and checked, the payments to the treasurer being verified and the outstanding accounts being listed and proved with the auditor's ledger accounts.

The librarian's records of fines collected were examined and checked. The payments to the treasurer were verified and the cash on hand on September 24, 1949 was proved by actual count.

The records of the cemetery commissioners pertaining to sales of lots were examined and checked. The receipts were checked and the payments to the treasurer were verified.

The books and accounts of the Deerfield-Whately Veterans' Service District were examined and checked in detail. The receipts on account of assessments were verified, the disbursements were checked with the authorized warrants and with the treasurer's record of disbursements, and the cash balance on September 24, 1949 was proved by reconciliation of the bank balance with a statement furnished by the depository.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's cash accounts, summaries of the tax and departmental accounts, as well as tables showing the transactions and condition of the trust and investment funds.

For the cooperation received from the town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

(Signed) HERMAN B. DINE,

Assistant Director of Accounts

Report of Superintendent of Schools

Arthur R. Strippe, Chairman
Whately School Committee

Dear Mr. Strippe:

I present to you, herewith my ninth consecutive yearly report as Superintendent of Whately Schools. It covers the calendar year 1949, and it includes enrollment and other data, and discussions of noteworthy features of the school business under various headings. For specialized reports I refer you to adjacent pages.

ENROLLMENT AND PERSONNEL

From the following Age-Grade Tabulation, it is seen very readily why we have had to re-distribute the pupils between the two buildings so as to have single grades at the Center School:

Ages in Years, as of October 1, 1949:													Grade
Grade	5	6	7	8	9	10	11	12	13	14	15	16	Totals
1	10	10											20
2		8	13	3									24
3			9	8	2								19
4				4	7								11
5					5	8	4						17
6						3	8	2					13
7							2	10	4	1			17
8								3	4	1			8
<hr/>													
Ages													
Totals	10	18	22	15	14	11	14	15	8	2			129

The heavier figures show, as usual the "normal"-aged pupils in the several grades, with the lighter figures the numbers of under or over-aged pupils therein. I believe sincerely that a better balance could be reached by making the minimum entering age 5 years, 9 months as of October first, in common with the other towns of this Union.

Last January we opened up another classroom at the East School, had Mrs. MacKay take over only Grade One, and Mrs. Hogan Grades Two and Three in the Center School, and divided Grades Four through Eight among Mrs. Powling, Mrs. White and Mrs. Hager.

That worked very well, but when another large First Grade group enrolled last September, further distribution was deemed advisable. The East School now is straight double-graded, and when further classroom space is needed, another room can be made ready very easily.

Last June, after teaching a total of some twenty-three, and in Whately schools eighteen years (6 years as Principal of the East School), Mrs. Marion W. Hager retired from the teaching profession. She served loyally and well, and richly deserves the respect and affection of everyone who ever served with or was instructed by her.

To replace Mrs. Hager as teaching-principal your Committee considered several young men as candidates, since it was felt that a man would be desirable in the position in order to be better able to lead the boys of the school in essential sports during recesses and other recreational times. Your choice was finally Mr. John D. Collins, Jr., of Turners Falls, a graduate of Central Michigan College of Education, and if he continues to fulfill our needs in the position as well as he has thus far, all will be well.

All other teaching and other staff members are as listed a year ago, excepting that Mr. Peter Orloski has replaced Mr. Bohonowicz as Janitor and Attendance Officer.

Whately's secondary school pupils are distributed, as of last October first, as follows:—

School Attended	Gr. 9	Gr. 10	Gr. 11	Gr. 12	Totals
Deerfield H. S.	5	3	5	3	16
Northampton H. S.	4	2	5	2	13
Smith's Agric. School	3	1	2		6
<hr/>					
Totals:	12	6	12	5	35

Besides the day-pupils aforementioned, an occasional adult takes evening instruction in vocational courses at Smith's School, and some twenty-seven ladies are being taught Rug-making in Evening Practical Arts under Smith's School instructors in the Whately Town Hall, all with tuition costs, defrayed by the town of Whately under your Committee's direction.

SUPPLIES, EQUIPMENT AND FACILITIES

Books and other instructional supplies are readily obtained once more, after times of some difficulty. In books, the process is somewhat costly, both for reason that prices are high, and that, as the current large class groups progress through the grades, it is better to purchase entirely new sets of texts than to attempt to obtain additional copies to piece out smaller numbers already a few years old.

In the matter of equipment, I think we have made great progress during 1949. Classroom equipment is fairly adequate, and we have purchased additional primary grade chairs for the Center School, and a dozen new visitors' type chairs so badly needed in the East School. Renovation of heating equipment is being considered.

A fine set of playground apparatus was set up on the South side of the Center School, and it was welcomed enthusiastically. At the East School, the outfield was filled and levelled, and the field will be well-suited to all the outdoors games Mr. Collins can schedule. Football goal posts were erected, and the backstop, previously built, was painted.

The biggest project is still in progress, however—renovation

of the sanitary facilities in both schools, and a masonry wall to be built around the heating plant at the Center school.

That work was scheduled for last summer, but the money appropriated was found, when the bids were opened, to be completely insufficient, and all bids were rejected. We are taking the necessary preliminary steps, as this report is written, to obtain bids so that a proper amount of money can be determined well ahead of Town Meeting, and an appropriate article inserted in the warrant. If approved by the townspeople, the project will be completed by next August fifteenth.

That finished, some more minor painting and renovating jobs will put both school buildings in such condition that no one need apologize. Now, if we can get an adequate water supply at the Center——?

EDUCATIONAL COSTS

The 1950 School Budget Estimate shows an increase of \$1640.00 over the 1949 School Appropriation, or a little less than five percent. It is due to various indicated item-costs increase, and does not provide for any general salaries changes from the rates obtaining in 1949.

As in most businesses, the biggest cost factor is wages. In the 1950 Estimate, NOT INCLUDING TRANSPORTATION PAYMENTS to bus operators, the salaries total is \$16,010.00 or just over 44 percent of the Estimate's total amount. However, Whately's salary scale is the lowest in this Union at present, lagging \$200.00 behind Conway and Sunderland in its classroom teacher maximum rates, and I strongly urge that it be brought level with the rates obtaining in those other two towns. I estimate it would involve an additional amount of \$1215.00 to do just that.

Even if the foregoing is acted upon, the \$2400.00 classroom teacher maximum prevailing in the three towns would still be far below rates prevailing in many other places. From a recent Greenfield School Department report, SEVENTY-NINE PERCENT OF THEIR BUDGET IS FOR SALARIES; and their teachers' salary scale shows:—

**“No. of Years of Approved and
Acceptable Training for Teaching
Beyond High School Graduation**

Maximum Salary

5 years	\$3700 00
4 years	3400 00
3 years	3100 00
2 years	2900 00
1 year	2800 00
0 years	2700 00

From the above it may be seen that, in the Greenfield schools it is quite possible for a teacher without any collegiate degree to receive as much as \$3100.00 per year; with a bachelor's degree, \$3400.00, and with a master's degree \$3700.00. Greenfield's a typical large-town school system, of course.

Very recently the Conway-Sunderland-Whately Teachers' Association presented to the three School Committees concerned a letter which, by your direction, I quote verbatim as follows:—

“To the School Committees of Conway, Whately and
Sunderland:

We of the Association Teachers in Conway, Whately and Sunderland respectfully submit a request for a single schedule of salaries and increments for the teachers of the above Towns. We present the following tentative schedule, based upon teaching experience and professional improvement, for your consideration:

Bachelor's Degree—1 year, base, \$2200; 2 years, \$2300; 3 years \$2400; 4 years \$2500; 5 years \$2600; 6 years \$2650; 7 years \$2700; 8 years \$2750; 9 years \$2800; 10 years \$2850; 11 years \$2875; 12 years \$2900; 13 years \$2925; 14 years \$2950; 15 years \$2975; 16 years \$3000, to 25 years \$3100. (Ten dollars increment per semester hour of approved professional study added to base salary in two years' periods not exceeding one hundred dollars in one period, nor a total maximum of two hundred dollars. Teachers who have twenty-five years of service should receive a one hundred dollar bonus).

Master's Degree—1 year, base \$2400; 2 years \$2500; 3 years \$2600; 4 years \$2700; 5 years \$2800; 6 years \$2850; 7 years \$2900; 8 years \$2950; 9 years \$3000; 10 years \$3050; 11 years \$3075; 12 years \$3100; 13 years \$3125; 14 years \$3150; 15 years \$3175; 16 years \$3200 to 25 years \$3300. (Same salary increment schedule for advanced study or professional improvement as for teachers with Bachelor's Degree. Twenty-five year bonus of one hundred dollars to apply).

Note:

1. Superintendent to approve in advance courses undertaken for professional improvement to be applied towards salary increment and to assign semester hour equivalents for approved extra-curricula project work that he may regard worthy of increment credit.

2. Same schedule to apply to teachers now in system without Bachelor's Degree.

(It may also be noted that teachers expect to begin schedule steps with seniority standings indicated by their salaries as of September first of the year when and if this tentative schedule goes into effect, and to progress accordingly per annum; hence, this tentative schedule is non-retroactive.)

(This schedule has been made after study of salary and increment schedules of many systems throughout the State. We believe it to be adapted to our needs.)

Rosalind H. Weston
John D. Collins, Jr.
Margaret L. Parsons
Richard C. Roche''

I feel that the foregoing letter was presented only after much careful study and consideration by the teachers, and that it merits thorough consideration by the three Committees. I expect that a joint meeting will be held for that purpose in the near future.

MISCELLANEOUS

The School Lunch Program continues to do a splendid job under the excellent management of Mrs. Alice Beaudry and under the auspices of the Whately P. T. A.

A year ago I commented upon the school nursing set-up then in force, whereby the Greenfield Visiting Nurse Association was furnishing us with the services of Mrs. Dorothy B. Yetter, R. N., until such time as a permanent arrangement could be made. Last September, following decisions made during the past summer, Miss Margretta McCann assumed the position of District Nurse for both Sunderland and Whately, and assumed the duties of School Nurse in both towns as part of her full-time job. She is personable, agreeable, and efficient, and I believe the arrangement should be continued.

In the issue of Work Certificates, I have made arrangements with Supt. of Schools Barry of Northampton so that he will attend to such issuance for those Whately young people under 21 whose employment or schooling is in Northampton. All others should arrange to come to my office in the Deerfield High School Building to obtain certificates, as it is not feasible (with the revised forms) to issue them at my home.

One other distinct accomplishment during 1949 was the renovation of the two flag poles at the two buildings. They are nicely suited as to height, can be lowered for overhaul when necessary, and the steel pole at the East School is a very fine lightning protector for that building.

RECOMMENDATIONS

So much is in line for accomplishment during 1950 that I shall limit my recommendations to non-cost action:

1. That all Whately citizens, particularly parents, visit their schools,—and the secondary schools attended by their children, as well.

2. That work certificate applicants apply for them only at my office (excepting those employed or schooling in Northamp-

ton should see Supt. Barry) during office hours, and bringing with them birth certificates or equivalent.

CONCLUSION

As usual, after this report is in the printer's hands, I shall doubtless regret my not having discussed other matters worthy of note. However, much HAS been discussed herein, and I am always glad to attempt to further explain anything so desired.

Nineteen hundred and forty nine was a momentous year—full of activity, as befits the closing year of the first half of the Twentieth Century. At present things are proceeding very smoothly in the schools, and future prospects seem good. We have additional classroom space for future expansion, steadily improving indoor and outdoor facilities, and a loyal and conscientious staff of employees to whom I hereby tender my grateful thanks for their services.

I also acknowledge very gratefully the hearty cooperation and complete courtesy I am always given by you and the other members of your Committee.

Very respectfully and sincerely,

SIDNEY OSBORNE

Report of the Music Supervisor

Mr. Sidney Osborne
Superintendent of Schools
Whately, Massachusetts

Dear Mr. Osborne:

I herewith submit my annual report as Supervisor of Music.

During the past few months there have been held several fine programs providing aid and inspiration to those in the educational field. Your music supervisor attended and was greatly benefited.

At this time I am taking the liberty of reviewing some of the notes taken.

During the Annual Teachers' Conference the music supervisors of the county were lectured to by a man who is connected with the Music Department of the Newton Public Schools. He stated that education consists of learning to do better that which the student is going to do in his daily life, therefore, making it necessary for the music supervisor to provide an understanding and an enjoyment of music. We, in Whately, have tried to accomplish this by teaching the children how to listen to radio programs intelligently, how to read news items of music programs, how to read music notation, and how to produce music—in short—to provide music experiences which will now and later enrich the lives of the individual. The speaker also named many excellent books and records for furthering music understanding and enjoyment.

At the Community Music Workshop, sponsored by the Massachusetts Music Educators' Association, were several inspirational speakers. Mr. Burke, Superintendent of Schools in

Turners Falls, spoke on "The Value of Music in Education." He felt that music was the fourth need of man, that the development and control of man's emotions through music is as vitally important as food or shelter. Music, he felt, makes for good will and democracy, is not restricted to class, race or creed, and that music, therefore, is not a luxury but a MUST in modern education.

Mr. Youngberg of the Springfield Schools spoke on "An Adequate Music Curriculum" saying that an elementary school should have weekly music periods of one hundred hours and should include use of voice and ear, listening (audio-visual aids), creating (melodies and original plays), response to rhythms, dancing, and music reading. He stressed, as others had, that music should be a wide experience in the form of incidental learning. "Music," said Mr. Youngberg, "should not be the step-child of the curriculum."

At an "Institute for Elementary School Teachers" information was primarily for the school room teacher though there were points of interest for a supervisor. Speakers all urged that we study and understand normal growth patterns of the individual child, to work for class discussions, oral expressions and creativeness.

In reviewing these fine lectures I have decided that, for the most part, the music program in these schools is not too far from that which authorities deem necessary for a complete, well-rounded music study in the school curriculum.

In closing I want to add that, due to the wonderful work that Mrs. White is doing with the music of the three rooms at the East Whately School, the children there are gaining musically to a marked degree. The Town of Whately has been fortunate in that their children have started their music experiences under the direction of Mrs. McKay who so capably leads the first graders into the joy of expressing themselves through music.

Respectfully submitted,

ISABEL B. MONTAGUE,

Music Supervisor

Report of the Art Supervisor

Mr. Sidney Osborne
Superintendent of Schools
Whately, Massachusetts

Dear Mr. Osborne:

I am pleased to submit my third annual report on the progress of the art program in the town of Whately.

The work being done in each grade is progressing in a most satisfactory manner. Interest on the part of the pupils keeps on a high plane and this interest is manifested in the continued high quality of much of the work being done.

One problem, especially, deserves consideration and that is the problem of adequate exhibition space for children's work. I am anxious to start exchanging exhibitions of pupils' work so that children of one school may see what pupils of a comparable age in other schools are capable of doing. Such a program should be an added stimulus to each child and the knowledge that his own work is being seen by other children should do much to keep the interest of each pupil at a high level. I believe that teachers, too, might benefit from this program.

Several new projects have been tried out during the past year and for the most part have been successful. The two days I was able to spend at the Eastern Arts Convention in Boston last April proved most stimulating and upon occasion I have been able to use ideas gathered there in my classroom work.

May I take this opportunity to thank all those who have given of their time and energy to the further development of the art program in the Whately schools.

Respectfully submitted,

RICHARD E. GABEL,

Art Supervisor

Report of the School Physician

Mr. Sidney Osborne
Superintendent of Schools
Whately, Massachusetts

Dear Mr. Osborne:

I am pleased to report the health of the Whately schools to be excellent. The routine physical examinations were conducted as usual this fall and a surprising small number of defects were noted and reported to the parents.

I was ably assisted by Miss Margretta McCann, Whately's new Town Nurse. Miss McCann graduated from Boundary Park Hospital in Lancashire, England and from the Rotunda in Dublin, Ireland, in 1942. I am sure the people of Whately are most fortunate in being able to secure her services.

Sincerely,

KENNETH H. RICE, M. D.,

School Physician

Report of the School Nurse

Mr. Sidney Osborne
Superintendent of Schools
Whately, Massachusetts

Dear Mr. Osborne:

Seventy-one school visits have been made since September, 1949.

In September the children were weighed and measured, and checked for general health and cleanliness.

Dr. Rice completed the physical examinations, and special defects were noted. Follow-up work is still being done about these defects. Dental cavities is a common problem, the parents have been most helpful and there has been a marked improvement.

I have had many consultations with the teachers who have helped me a lot and kept me aware of the needs of the children.

Parents should feel free to discuss with the nurse at any time the health problems of their children. I will be glad to help them in any way.

The Hearing Testing with the new Maico Audiometer is almost completed with a high percentage of passes. We hope to test the first grade this year.

There have been three instances of communicable diseases. I deeply appreciate the cooperation given by everyone.

Respectfully submitted,

MARGRETTA McCANN,

School Nurse
